

COMMAND MODULE Ver 5.03

2026 NHRA TF

Features:

- Full Safety Box with distance and analog output.
- 21 timer outputs without RPM feature, 3 Clutch stop timers.
- 1 Electronic Air Regulator for fuel control.
- High and Low Clutch regulator.
- Boost / Rev Shut off device.

Notes:

- This version has limited user parameter access.
- File Format *.EM2 files
- Best used with version 4.08 software and latest descriptions.
- Older *.EM2 files will load into Command Module.
- Visual NHRA logo on faceplate for easy identification.
- 5.03 or newer firmware identified on startup screen.

Updating older Versions:

- Before returning unit, **save your car file** (units will be sent back with **default** settings and data).
- Send units to ELECTRIMOTION 1484 Dale Ford Rd Delaware, OH 43015
- Include contact information and email.
